**Componenti
per
Scrivanie
Components for desks**

**Componenti per
Scrivanie Robusti - Pratici - Versatili**

Gamma completa di componenti per scrivanie fisse e regolabili in altezza. Progettate per organizzare lo spazio dell'ufficio automatizzato, risponde ampiamente alle esigenze di un arredo di linea sobria e moderna. La finitura delle superfici è con verniciatura a polveri. I piedi sono provvisti di supporti regolabili. Le gambe e le travi sono elettrificabili con il cavo di alimentazione elettrica, il cavo coassiale per il computer e il cavo per alimentazione telefonica. I componenti sono modulari fra loro, smontabili, aggregabili. Sono stati inoltre progettati diversi angoli di raccordo per consentire una combinazione illimitata di configurazione.

**Components for desks
Strong - Practical - Versatile**
Full range of components for standard and height-adjustable desks. Designed as complete solutions for the space planning needs of the modern automated office. The components for desks are made in steel plate finely shaped and painted with epoxy-powders. The legs are provided with height adjustable feet. The legs and the beams are also able to accept service system cable, fitted with three separate connection points for the electricity main supply, the coaxial computer network cable and the telephone line. The system offers an extraordinary versatility to the ease, because the different desks can be joined together, to make every model modular, sectional and simple to disassemble. Enhancing this, both systems include a wide range of specially designed corners connecting surfaces, enabling to achieve an infinite variety of layouts.
